

DAVID JARVIS ASSOCIATES

JOB DESCRIPTION

Job Title:	Design Support Technician
Position:	Permanent
Key Skills:	Able to produce technical and presentation level drawings, 3D digital models, photo-real photomontages and visualisations using ArcGIS 3, LSS, 2D CAD (minimum certificate level 3), Adobe Illustrator and Sketchup as appropriate.
Salary:	£25000 -£30,000 depending on experience, ability and qualifications.
Location:	DJA Swindon or Cheltenham office
Working Hours:	Minimum 37½ hours per week, Monday-Friday.

The Company

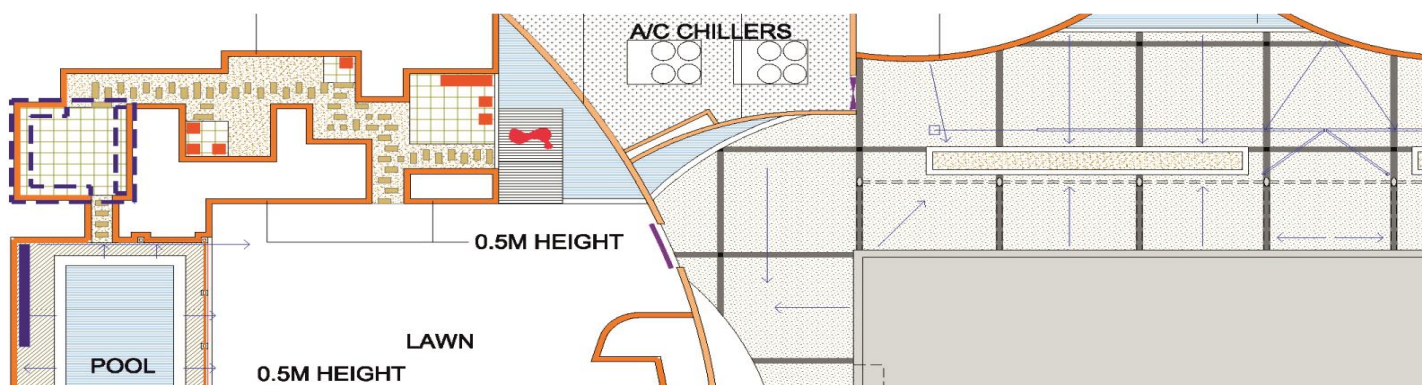

From its origins as a small landscape architecture practice in the early 1980's the Company has grown into a medium sized consultancy with a rich and varied portfolio of work throughout the UK, Ireland, Continental Europe, the Middle East and the Caribbean.

The planning, urban design and landscape teams form a core aspect of the business meeting the needs of the public and private sector. Our work covers all levels from strategic national planning to on-site based research and fieldwork.

We provide our clients with a high level of in house design, project management and technological expertise including all manner of computer based media.

Projects

We enjoy a diverse workload across most sectors of the economy. Projects include new settlements, renewable energy, commercial, retail, leisure and agricultural development, the minerals and waste industry as well as related research. More details are available from our website- www.davidjarvis.biz

The Position

At a minimum level your duties will include the preparation of technical and presentation drawings using ArcGIS, Autocad, and Adobe Illustrator as well as 3D digital models using LSS and Sketchup. You will also be expected to assist with the production of Zones of Theoretical Visibility studies using LSS.

We appreciate that you may not be familiar with LSS software however we are prepared to offer full training on site to the right candidate.

The position offers a wide variety of experience and provides an excellent opportunity for career progression. You will need to be highly responsive, keen to learn and able to work under pressure. Your professional abilities should include consistent and high quality work as well as being client focused and proactive.
